

NAUSEA AND VOMITING

CHI Formulary Treatment Algorithm

Treatment Algorithm-October 2023 Supporting treatment algorithm for the clinical management of Nausea and Vomiting

Figure 1 outlines a comprehensive treatment algorithm on **the local, local-regional disease and advanced disease for Nausea and Vomiting**, aimed at addressing the different lines of treatment after thorough review of medical and economic evidence by CHI committees.

For further evidence, please refer to CHI **Nausea and Vomiting** full report. You can stay updated on the upcoming changes to our formulary by visiting our website at <https://chi.gov.sa/AboutCCHI/CCHIprograms/Pages/IDF.aspx>

Our treatment algorithm offers a robust framework for enhancing patient care and optimizing treatment outcomes across a range of treatment options, holding great promise for improving healthcare delivery.
