

Nocturnal Enuresis

CHI Formulary Treatment algorithm

Treatment algorithm- November
2023

Supporting treatment algorithms
for the clinical management of
Nocturnal Enuresis

Figure 1 outlines a comprehensive treatment algorithm on management of **Nocturnal Enuresis** in Children aimed at addressing the different lines of treatment after thorough review of medical and economic evidence by CHI committees.

For further evidence, please refer to CHI **Nocturnal Enuresis** full report. You can stay updated on the upcoming changes to our formulary by visiting our website at <https://chi.gov.sa/AboutCCHI/CCHIprograms/Pages/IDF.aspx>

Our treatment algorithm offers a robust framework for enhancing patient care and optimizing treatment outcomes across a range of treatment options, holding great promise for improving healthcare delivery.

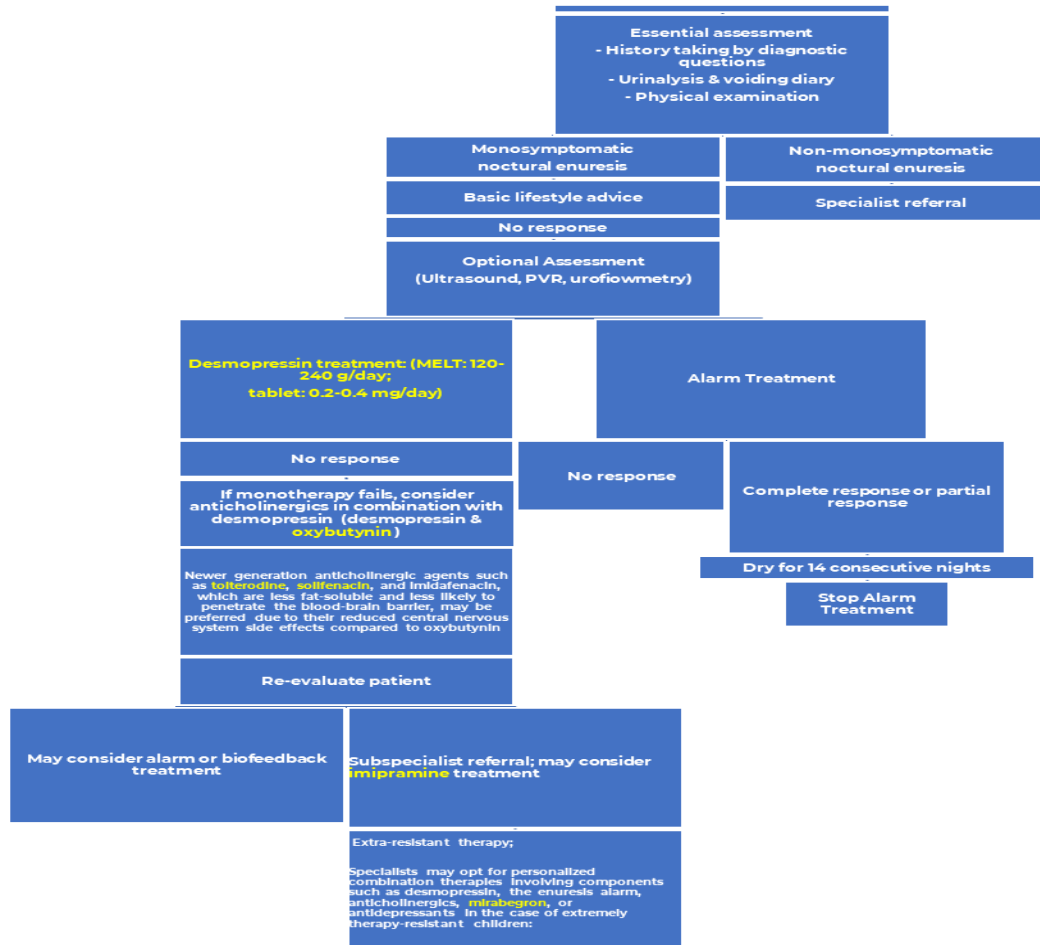

Figure 1. Recommendations for the assessment and the treatment of children with nocturnal enuresis

- Pediatrics International. Management of treatment-resistant nocturnal enuresis 2023. For the level of evidence, please refer to the full report.
- Journal of pediatric urology. Management and treatment of nocturnal enuresis an updated standardization document from the International Children's Continence Society 2020. For the level of evidence, please refer to the full report.
