

Hemophilia

CHI Formulary Treatment algorithm

Treatment algorithm- November
2023

Supporting treatment algorithms
for the clinical management of
Hemophilia

Figures 1 and Figure 2 outline comprehensive treatment algorithms for the treatment of **Hemophilia A and Hemophilia B**, respectively, aimed at addressing the different lines of treatment after thorough review of medical and economic evidence by CHI committees.

For further evidence, please refer to CHI **Hemophilia** full report. You can stay updated on the upcoming changes to our formulary by visiting our website at <https://chi.gov.sa/AboutCCHI/CCHIprograms/Pages/IDF.aspx>

Our treatment algorithm offers a robust framework for enhancing patient care and optimizing treatment outcomes across a range of treatment options, holding great promise for improving healthcare delivery.
